

#BlackLivesMatter

Kore Group and Kaye-Smith stand with the black community and believe the **#BlackLivesMatter** movement deserves to be heard and recognized.

Listening is one part of the solution, action is another. Kaye-Smith is contributing time and money to non-profit organizations that invest in BIPOC communities. We will donate \$100,000 in 2020 to 501 c3 non-profits which contribute to building up and supporting black, indigenous and people of color.

We, as individuals and as an organization, will continue to be involved in civic and scholastic organizations that are contributing to solutions. We will also recognize local law enforcement organizations that are leading for change.

Please embrace one another, and listen.
